Assessment system of learning outcomes

The university uses a 100-point accumulative system for evaluating the learning outcomes of students of higher education.

The form of semester control is credit: the maximum amount is 100 points; the minimum amount that allows a student of higher education to receive credit is 60 points.

Final control is carried out in the form of semester control.

Semester control is conducted in the form of credit. The credit score is determined by summing the points for all types of current control.

During the teaching of the academic discipline, the following activities are used: writing an article (40 points), theses (20 points), 4 essays (40 points).

More detailed information about the evaluation system is given in the work plan (technological map) for the academic discipline.

Course policies

The teaching of the course is based on the principles of academic integrity. Violations of academic integrity include: academic plagiarism, fabrication, falsification, write-off, deception, bribery, or biased evaluation. For violation of academic integrity, students are brought to the following academic responsibility: re-assessment of the relevant type of educational work

More detailed information about competencies, learning outcomes, teaching methods, assessment forms, independent training is given in the Program of the course
