Teaching environment (software)

Multimedia projector, S. Kuznets PNS, Corporate Zoom system

Assessment system

The University uses a 100-point cumulative system for assessing the learning outcomes of students.

Current control is carried out during lectures, practical, and seminar classes and is aimed at checking the level of readiness of the student to perform a specific job and is evaluated by the amount of points scored: – for courses with a form of semester control as grading: maximum amount is 100 points; minimum amount required is 60 points.

The final control includes current control and assessment of the student.

Semester control is carried out in the form of a grading.

The final grade in the course is determined: for disciplines with a form of grading, the final grade is the amount of all points received during the current control.

During the teaching of the course, the following control measures are used:

Current control: creative research task (20 points), current control work (30 points), colloquium (40 points), presentation (10 points).

Semester control: Grading

More detailed information on assessment is given in the work plan (technological map) of the discipline.

Course policies

The teaching of the discipline is based on the principles of academic integrity. Violations of academic integrity are: academic plagiarism, fabrication, falsification, write-off, deception, bribery, biased evaluation.

Education seekers may be brought to the following academic responsibility for breach of academic integrity: repeated assessment of the corresponding type of learning activity.

More detailed information on competencies, learning outcomes, teaching methods, assessment forms, independent work is given in the Work program of the discipline
