Assessment system		
The University uses a 100-point accumulative system for evaluating the learning outcomes of students of higher education.		
Current control is carried out during lectures and laboratory classes and is aimed at checking the level of readiness of the student of higher education to perform specific work and is evaluated by the sum of points scored:		
– for course with a form of semester control as an exam: the maximum amount is 60 points; minimum		

amount required is 35 points.

The final control includes the semester control and assessment of the student.

Semester control is carried out in the form of a semester exam.

The maximum number of points that a student of higher education can receive during the examination (examination) is 40 points. The minimum amount for which the exam is considered passed is 25 points.

Current control: Individual educational and research tasks , colloquium, individual task.

Semester control: Grading including Exam (40 points).

More detailed information on assessment and grading system is given in the technological card of the course.
