Teaching environment (software)

Multimedia projector, S. Kuznets PNS, Corporate Zoom system

Assessment system

Assessment of higher education seekers` learning outcomes is carried out by the university according to the cumulative 100-point system

Current control is carried out during lectures, practical, laboratory and seminar classes and aims to check the level of the level of readiness of the higher education student to perform a specific job and is assessed by the amount of points scored: the maximum possible number of points for the current control during the semester for the discipline in the form of credit control is 100 and the minimum possible number of points is 60.

More detailed information on assessment and point accumulation is given in the technological card of the course

Course policies

Teaching of the academic discipline is based on the principles of academic integrity. Violations of academic integrity include: academic plagiarism, fabrication, falsification, write-off, deception, bribery, or biased evaluation. For violation of academic integrity, students are brought to the following academic responsibility: re-assessment of the relevant type of educational work.

More detailed information about competencies, learning outcomes, teaching methods, assessment forms, self-study is given in the Syllabus (working plan)of the educational course
