Theme 1. Theoretical basis of scientific research		
Theme 2. Steps of the scientific method. Basic techniques to create ideas		
Theme 3. The technology of working with literature		
Content module 2. Technology of scientific research and problems solving		
Theme 5. Quantitative Research Design & Methods		
Theme 6. Substantiation methods of the problems solving		
Teaching environment (software)		
<i>Multimedia projector, S. Kuznets PNS, Corporate Zoom system</i>		
Assessment system		
Assessment of students' learning outcomes is carried out by the University according to the cumulative 100-point system.		

Current control is carried out during lectures and practical (seminar) classes and aims to assess the level of students' readiness to perform particular tasks, and is assessed by the amount of scored points.

The maximum amount during the semester – 60 points; the minimum amount required is 35 points. Final control is carried out at the end of the semester in the form of an exam (the maximum amount is 40 points, the minimum amount required is 25 points).

Current control includes the following assessment methods: assignments on a particular topic; testing; presentations, and essay writing.

More detailed information on assessment and grading system is given in the technological card of the course.

Course policies

Teaching of the academic discipline is based on the principles of academic integrity.

Violation of academic integrity includes academic plagiarism, fabrication, falsification, cheating, deception, bribery, and biased assessment.

Students may be brought to the following academic responsibility for breach of academic integrity: repeated assessment of the corresponding type of learning activity.

More detailed information about competencies, learning outcomes, teaching methods, assessment forms, self-study is given in the Course program
