**Assessment forms and methods**

The university uses a 100-point accumulative system for evaluating the learning outcomes of students of higher education.

Current control is carried out during lecture, practical, laboratory and seminar classes and is aimed at checking the level of preparedness of the student of higher education for the performance of specific work and is evaluated by the sum of points scored: the maximum sum is 60 points; the minimum amount that allows a student of higher education to pass an exam is 35 points.

The final control includes the semester control and certification of the student of higher education. Semester control is conducted in the form of a semester exam (exam). The semester exam (exam) is taken during the exam session. The maximum number of points that a student of higher education can receive during the examination (examination) is 40 points. The minimum amount for which the exam is considered passed is 25 points. The final grade for the academic discipline is determined by: adding up the points for the current and final control.

*More detailed information on the system of evaluation and accumulation of points for the academic discipline is provided in the work plan (technological map) for the academic discipline.*

**Discipline policies**

The teaching of the discipline is based on the principles of academic integrity. Violations of academic integrity include: academic plagiarism, fabrication, falsification, write-off, deception, bribery, or biased evaluation. For violation of academic integrity, students are brought to the following academic responsibility: re-assessment of the relevant type of educational work
