Material and technical (software) support of the discipline	
Multimedia projector, PNS KhNEU named after S. Kuznets , ZOOM	
Forms and methods of assessment	
The university uses a 100-point cumulative system for assessing the learning outcomes of higher education applicants.	

Current control is carried out during lectures, practical, laboratory and seminar classes and is aimed at checking the level of preparedness of a higher education applicant to perform specific work and is assessed by the sum of the points scored: the maximum sum is 60 points; the minimum sum that allows a higher education applicant to take an exam (exam) is 35 points.

Final control includes semester control and certification of a higher education applicant. Semester control is carried out in the form of a semester exam (exam). The semester exam (exam) is taken during the examination session. The maximum amount of points that a higher education applicant can receive during the exam (exam) is 40 points. The minimum amount at which the exam (exam) is considered passed is 25 points. *The final grade for the academic discipline* is determined by adding up the points for the current and final control.

***More detailed information on the assessment system and accumulation of points for the academic discipline is provided in the work plan (technological map) for the academic discipline.***

#### **Academic discipline policies**

Teaching of academic discipline is based on the principles of academic integrity. Violations of academic integrity are considered to be: academic plagiarism, fabrication, falsification, copying, deception, bribery, biased evaluation. For violations of academic integrity, students are held to the following academic responsibility: re-taking the evaluation of the relevant type of academic work

***More detailed information on competencies , learning outcomes, teaching methods, assessment forms, and independent work is provided in the Work Program of the academic discipline.***
