<b>Learning forms and methods</b>	
<p>The university employs a 100-point cumulative grading system to evaluate the learning outcomes of its higher education students. Ongoing assessment takes place during lectures and practical sessions, aiming to assess the student's preparedness to perform specific tasks. This is evaluated by the total number of points earned. The final assessment includes semester control, which is conducted in the form of a differentiated pass. The maximum number of points for the ongoing evaluation during the semester for a subject with a differentiated pass form of control is 100, while the minimum possible number of points is 60.</p> <p>Ongoing assessment includes the following control measures: topic-based tasks, quick tests, and control works.</p>	

***More detailed information on assessment and grading system is given in the technological card of the course.***

**Course policies**

Teaching of the academic discipline is based on the principles of academic integrity.

Violation of academic integrity includes academic plagiarism, fabrication, falsification, cheating, deception, bribery, and biased assessment.

Students may be brought to the following academic responsibility for breach of academic integrity: repeated assessment of the corresponding type of learning activity.

***More detailed information about competencies, learning outcomes, teaching methods, assessment forms, self-study is given in the Course program***
