Assessment forms and methods

The system for evaluating the developed competencies takes into account the types of classes that include lectures, seminars, practical, laboratory classes, as well as independent work. Assessment of students' developed competencies is carried out according to a cumulative 100-point system. Current control, which is carried out during the semester during practical (seminar), laboratory classes and

independent work, is evaluated by the sum of points. The maximum possible number of points for the current and final control during the semester is 100, and the minimum possible number of points is 60.

Current control includes the following control measures: performance of a creative task, presentation of a creative task, execution and defense of laboratory work reports, performance of current control works.

More detailed information on the evaluation and accumulation of points for the academic discipline is provided in the work plan (technological map) for the academic discipline.

Policies of educational discipline

The teaching of the academic discipline is based on the principles of academic integrity. Violations of academic integrity include: academic plagiarism, fabrication, falsification, writing off, deception, bribery, biased assessment. For violation of academic integrity, students of education are subject to the following academic responsibility: repeated evaluation of the corresponding type of educational work.

More detailed information on competencies, learning outcomes, learning methods, assessment forms, independent work is provided in the Work Program of the educational discipline
