Assessment system

Assessment of students' learning outcomes is carried out according to the cumulative 100-point system.

Current control lasts during lectures and practical (seminar) classes and aims to assess the level of students' readiness to perform particular tasks. Current control contains the amount of scored points.

The maximum amount during the semester – 60 points; the minimum amount required is 35 points. Final control is carried out at the end of the semester in the form of an exam (the maximum amount is 40 points; the minimum amount required is 25 points).

Current control includes the following assessment methods: final presentation; express tests.

You can find detailed information on assessment and grading system in the technological card of the course.

Course policies

Teaching of the academic discipline is based on the principles of academic integrity.

Violation of academic integrity includes academic plagiarism, fabrication, falsification, cheating, deception, bribery, and biased assessment.

Educational students may be brought to the following academic responsibility for breach of academic integrity: repeated assessment of the corresponding type of learning activity.

More detailed information about competencies, learning outcomes, teaching methods, assessment forms, self-study is given in the Course program
