

Syllabus of academic discipline «Ecology»

Specialty	<i>all</i>
Educational program	<i>all</i>
Level of education	<i>Bachelor</i>
Academic discipline status	<i>Selective</i>
Teaching language	<i>English</i>
Course / semester	<i>1 course, 1,2 semester</i>
Number of credits ECTS	<i>5 credits</i>
Distribution by types of trainings and hours of study	<i>Lecture – 30 hours</i> <i>Practical studies (seminars) – 30 hours</i> <i>Self study – 90 hours</i>
Form of final assessment	<i>Credit</i>
Department	<i>Department of hotel and restaurant business, aud. 307 (main build.), tel. (057) 702-18-32 (add. 3-28), department website http://kafgrb.hneu.edu.ua/</i>
Teacher (-s)	<i>Protasenko Olga F., Associate Professor, Candidate of Technical Sciences</i>
Teacher's contacts	<i>olha.protasenko@hneu.net</i>
Days of the classes	<i>Lecture: according to the current schedule</i> <i>Practice: according to the current schedule</i>
Consultations	<i>At the Department of hotel and restaurant business, full-time, according to the consultations schedule, individual, chat in PNS</i>
The discipline aims to develop students' competencies on issues of modern ecology, understanding the mechanism of influence of human activity on the environment, analysis of the main sources of impact on the environment and the primary requirements for storage and lay the foundations for future specialists in environmental culture	
Prerequisites for learning Introduction to the speciality	
Content of academic discipline	
Content module 1. Ecosystem level of organisation of matter and the anthropogenic impact on the environment	
Theme 1. Object, subject, and aims of ecology	
Theme 2. Ecosystem level of matter organisation	
Theme 3. The biosphere is a global ecosystem of the Earth. Global ecological problems	
Theme 4. The anthropogenic impact on the environment	
Content module 2. Environmental protection and management	
Theme 5. Economic mechanisms of environmental protection. Management of eco-protection	
Theme 6. Eco-monitoring. Environmental control in Ukraine	
Theme 7. Eco-marketing. Eco-audit	
Theme 8. Eco-safety and environmental risks	
Theme 9. World ecological policy	
Material and technical (software) of the academic discipline <i>Multimedia projector</i>	
Course page on the Moodle platform (personal training system)	https://pns.hneu.edu.ua/course/view.php?id=4860

Assessment system of learning outcomes

The assessment system of the formed competencies considers the classes' types, which include practices and independent work. Assessment of students' competencies is executed according to the accumulative 100-point system. The current control is realised during the semester in classes and assessed by the sum of scored points. The maximum possible number of points is 100 points, and the minimum possible number of points is 60.

Current control includes the following measures: tasks by themes; tests.

More detailed information on the estimation and accumulation of points for the academic discipline is in the work plan (technological card).

Academic discipline policies

The teaching of the academic discipline is based on the principles of academic integrity. Violations of academic integrity are academic plagiarism, fabrication, falsification, write-off, deception, bribery, or biased evaluation. For violation of academic integrity, students are brought to the following academic responsibility: re-assessment of the relevant type of educational work.

More information on competencies, learning outcomes, teaching methods, assessment forms, and independent work is in the Work Program of the academic discipline
